SINOPSIS

CERRADO, Beyond the Mist introduces the viewer to one of the least known and beautiful ecosystems in the world, located in the centre of Brazil. A dance of color and light, unraveling like a creation myth through the primal elements of Water, Fire, Lightning and Rain, all the while celebrating the amazing and strange animals that occupy its landscape. A new genre of documentary filmmaking, trusting the powerful beauty and mystery of the place to dictate the mood through a unique artistic vision with pulsating and evocative original music.
